

PacificFader™

Continuous Color Control for the Selecon Pacific.

PacificFader™ adds Morpheus' superior color mixing to the Selecon Pacific range of ellipsoidal luminaires. Using proprietary dichroics developed for the PanaBeam™XR2, PacificFader™ delivers a wide gamut of colors with deep saturates plus an extraordinary range of pastels that are suited to the theatrical palette.

PacificFader™ is available in three configurations:

PacificFader3™ – provides CYM color mixing for use with tungsten sources.

PacificFader4™ – CYM *plus* an incredibly smooth optical dimmer for use with energy efficient CDM, CST or MSR arc sources.

PacificFader5™ – CYM *plus* optical dimmer *plus* Morpheus' exclusive variable 2x CTO for color correction of daylight arcs.

PacificFader™ is protected by a 2-year limited warranty.

PacificFader™ Preliminary Specifications

Dimensions (H x W x D)	17.5" x 12.5" x 4" (445 mm x 318 mm x 102 mm)
Aperture Size	4.5" (114 mm) diameter
Weight	PacificFader3™: 17 lbs (7.7 kg) PacificFader4™: 18.5 lbs (8.4 kg) PacificFader5™: 20 lbs (9.1 kg)
Operating Temperature	0° to 120° F (-18° to 50° C)
Power Input	3' 4" (100 cm) cable without power plug
Power Consumption	65 watts / Auto sensing 100-240 VAC 50/60 Hz
Control Input / Output	XLR 5-pin with pass-through
Control Protocol	USITT DMX-512
